Post 2

### NOTES:

1. The mailbox manufacturer is Imperial Mailbox. You may order directly from [imperialmailbox.com](http://imperialmailbox.com) or you may order from a third-party provider at a possible lower cost.
2. There are two acceptable post designs: Post 1 and Post 2 (Imperial), Posts IMPP1 or IMPP2 ([budgetmailboxes.com](http://budgetmailboxes.com)), or the package Model 119K ([budgetmailboxes.com](http://budgetmailboxes.com)) or Williamsburg Styles 111 or 119 ([midatlanticmailboxes.com](http://midatlanticmailboxes.com)).
3. There are variations on the box styles. You may choose from the Fleur de Lis, the Scroll, the oval emblem, the Stagecoach or the Eagle.
4. A knob on the door is preferred to a ring. This makes it easier for the mail carrier to open the box.
5. The box should be black, use an 'S' scroll bracket and a #1 number plate. Any of these boxes may be ordered with an optional newspaper box if desired.
